

CALL FOR PAPERS

1st International PhD-Day of the AAEE Student Chapter

Vienna University of Technology
Friday, 30 March 2012

The Student Chapter of the Austrian Association for Energy Economics announces the first international PhD-Day at the Vienna University of Technology on Friday, 30 March 2012. The aim of the PhD-Day is to give PhD-students the opportunity to present their work in detail including a comprehensive feedback of senior researchers and professors in the field of energy economics. **The participation and all provisions are free of charge!** The topics of the dissertation (also work in progress) can be of theoretical or empirical nature and can, among others, address the following aspects:

Innovative energy technologies and interactions in energy systems

- Renewable energy sources
- Energy market modelling (oil, gas, electricity, etc.)
- Energy efficiency

Analysis of energy-economic aspects (time series, cross-sectoral interactions)

- Buildings and households
- Mobility
- Industry
- Supply of services and goods

Electricity grids, system operation and energy storage

- Smart grids
- Transmission grids
- Innovative energy storage systems

Submission of papers and registration

Please submit your paper including the chapters "overview, methods, results, conclusions, bibliography" (max. 15 pages, Arial 11pt, line spacing 1.3) until **19 February 2012** as word-file to aaeesc@eeg.tuwien.ac.at.

Acceptance notification will be by 4 March 2012, registration deadline is 20 March 2012.
